EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Claim 23 is allowable. The restriction requirement between Sub-species 1a, 1b, 2a, 2b, & 2c, as set forth in the Office action mailed on 7/24/06, has been reconsidered in view of the allowability of claims to the elected invention pursuant to MPEP § 821.04(a). **The restriction requirement is hereby withdrawn as to any claim that requires all the limitations of an allowable claim.** Claims 24-28, directed to Sub-species 2c are no longer withdrawn from consideration because the claim(s) requires all the limitations of an allowable claim. However, claims 8, 9, and 20-22, directed to Sub-species 1a, 1b, 2a & 2b remain withdrawn from consideration because they do not require all the limitations of an allowable claim.

In view of the above noted withdrawal of the restriction requirement, applicant is advised that if any claim presented in a continuation or divisional application is anticipated by, or includes all the limitations of, a claim that is allowable in the present application, such claim may be subject to provisional statutory and/or nonstatutory double patenting rejections over the claims of the instant application.

Once a restriction requirement is withdrawn, the provisions of 35 U.S.C. 121 are no longer applicable. See *In re Ziegler*, 443 F.2d 1211, 1215, 170 USPQ 129, 131-32 (CCPA 1971). See also MPEP § 804.01.

This application is in condition for allowance except for the presence of claims 8, 9, and 20-22 directed to Sub-species 1a, 1b, 2a & 2b non-elected without traverse. Accordingly, claims 8, 9, and 20-22 have been cancelled.

Drawings

2. The drawing filed on 3/15/07 is accepted by the examiner.

Allowable Subject Matter

3. The following is an examiner's statement of reasons for allowance:

Regarding claim 15, the Okamoto (US 2003/0194354) discloses a fuel tank, a reformer, a water tank, a vaporizer configured to vaporize the water in the water tank, a CO oxidizer, and a fuel cell. However, Okamoto does not expressly teach a water tank being coupled to the fuel tank, wherein the water tank includes a first chamber coupled to an upper part of the fuel tank; and a partition disposed between the first chamber and the second chamber.

Regarding claim 23, the Okamoto (US 2003/0194354) discloses a fuel tank, a reformer, a water tank, a vaporizer configured to vaporize the water in the water tank; a CO oxidizer, and a fuel cell. However, Okamoto does not expressly teach a oxygen supply unit including: a first chamber coupled between the CO gas removal apparatus and a fuel electrode of the cell unit; a second chamber connected to an air electrode of the unit; and a partition disposed between the first chamber and the second chamber.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably

accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
